### Stargate Puzzle

This is an easy to print basic Stargate Themed puzzle. The parts consist of the main stargate frame (that can be printed in 3 colors if you prefer) and 23 pieces that fit within the frame.

I printed my frame in Inland Gray, Inland Gold, and Inland Red (all PLA+). The included print file has stops in it for the color changes

The individual parts are included as separate STLs as well as a print file - I printed mine in Blue PLA+ (for that Activated Stargate look). I printed the

pieces all together, as a single print, but placed them randomly on the bed, to avoid showing the solution.

The Stargate frame can also be used as a Giant Mug Coaster or even a small picture frame. The simple Stargate frame is a “scaled up” version of my christmas ornament Stargate. I kept the details to a minimum (no inner ring or glyph's) for quicker print time

03-04-2021 Update - I made a stand for the frame - find it here:
